

laws of any State, or any State, regional, or local government, who, following management program approval, files an application for a Federal license or permit to conduct an activity affecting the coastal zone. The term “applicant” does not include Federal agencies applying for Federal licenses or permits. Federal agency “activities” requiring Federal licenses or permits are subject to the consistency requirements of subpart C of this part.

**§ 930.53 Management program license and permit listing.**

(a) During management program development, Federal agencies should assist State agencies in identifying Federal license and permit activities which reasonably can be expected to affect the coastal zone.

(b) State agencies shall develop a list of Federal license and permit activities which are likely to affect the coastal zone and which the State agency wishes to review for consistency with the management program. The list shall be included as part of the management program, and the Federal license and permit activities shall be described in terms of the specific licenses or permits involved (e.g., Corps of Engineers 404 permits, Coast Guard bridge permits, etc.). In the event the State agency chooses to review Federal licenses and permits for activities outside of the coastal zone but likely to affect the coastal zone, it must generally describe the geographic location of such activities.

(c) If a State agency wishes to avoid repeated review of minor Federally permitted activities which, while individually inconsequential, cumulatively cause effects on the coastal zone, the State agency, after developing conditions allowing concurrence for such activities, may issue a general public notice (see § 930.61) and general concurrence allowing similar minor work in the same geographic area to proceed without prior State agency review. In such cases, the State agency must set forth in the management program license and permit list the minor Federal license and permit activities and the relevant conditions which are covered by the general concurrence. Minor Federal license or permit activities

which satisfy the conditions of the general concurrence are not subject to the consistency certification requirement of this subpart. Except in cases where the State agency indicates otherwise, copies of Federal license or permit applications for activities subject to a general concurrence must be sent by the applicant to the State agency to allow the State agency to monitor adherence to the conditions required by such concurrence. Confidential and proprietary material within such applications may be deleted.

(d) The license and permit list may be amended by the State agency following consultation with the affected Federal agency and approval of additions or deletions by the Assistant Administrator. The State agency shall provide copies of the list and any amendments to Federal agencies and shall make the information available to the public.

(e) No Federal license or permit described on an approved list shall be issued by a Federal agency until the requirements of this subpart have been satisfied. Federal agencies shall inform applicants for listed licenses and permits of the requirements of this subpart.

**§ 930.54 Unlisted Federal license and permit activities.**

(a) With the assistance of Federal agencies, State agencies should monitor unlisted Federal license and permit activities (e.g., by use of intergovernmental review process established pursuant to E.O. 12372, review of NEPA environmental impact statements, etc.) and shall immediately notify Federal agencies and applicants of unlisted activities affecting the coastal zone which require State agency review. State agencies must inform the Federal agency and applicant within 30 days from notice of the license or permit application, otherwise the State agency waives its right to review the unlisted activity. The waiver does not apply in cases where the State agency does not receive notice of the Federal license or permit activity.

(b) The State agency must also notify the Assistant Administrator of unlisted Federal license or permit activities which the State agency believes
